

Ministry of Mines & Energy
Namibia

MEDIA RELEASE

13 November 2017

COLLECTION OF APPROVED PETROLEUM CERTIFICATES AND LICENCES

The Ministry of Mines and Energy has during the implementation of the new Petroleum Products Regulations, 2000 noticed that many licences/certificate applicants are not collecting their licences and certificate once issued. Therefore, all applicants are herewith informed that all issued licences/certificates must be collected from MME within 60 days from date of this notification to ensure legal approval for the operation of a fuel outlet.

Failure to collect licences/certificate within the above-mentioned period will result in involuntary cancellation of your licence.

Furthermore, please take note that a licence must be displayed at a visible place within reach to our Inspectors at the premises of the business. Operators not in possession of such licence/certificate will be deemed trading illegally and may lose their rights to operate.

FOR MORE INFORMATION KINDLY CONTACT:

Ms. Codla C. Tjingovera

Tel: (061) 284 8271

Mr. Tupa Iyambo
