

GEOSCIENCE, THE BEDROCK OF MODERN-DAY LIFE

OUTREACH FOR GEOSCIENCE AWARENESS

TIMESLOTS & FM FREQUENCIES FOR THE

“GEOSCIENCE CORNER” RADIO TALK SHOW ON NBC RADIO 2022

Geoscience Advocacy and Promotion is one of the Geoscience Council of Namibia's main issues that focuses on continuously promoting the importance of geoscience in our daily lives as well as to national sustainable economic development initiatives.

11	Wato FM	Thursdays 19h15 – 20H15	Fridays: 11h05 – 12h00

The eight geoscientific themes to be covered by the “**GEOSCIENCE CORNER**”:

MONTH	FEBRUARY	MARCH	APRIL	MAY	JUNE	JULY	AUGUST	SEPTEMBER
THEMES	Hydrogeology and contaminant geology	Minerals and rock materials	Agrogeology (Rock to Crop) and Medical Geology	Engineering geology	Geohazards	Geoheritage & geotourism	Energy	Climate change

Each theme will explain the scope and application of a particular aspect of geoscience.

The main objectives of the Geoscience Corner Radio Talk Show are to:

- Broaden society's knowledge base of practical geology in everyday life.
- Participatory engagement and dialogue between geoscientists and wider audience.
- Create the opportunity for knowledge exchange between geoscientists and the public.
- Enlighten society on geoscience services available in the country in an easy-to-understand layman language.

The expected outcomes from the Geoscience Corner Radio Talk Show are:

- Improved geoscientific literacy throughout the public.
- Enhanced participatory engagement and dialogue between geoscientists and public at large.

See the NBC FM frequencies on the next page.
