Department of Safeguards

Come and join our unique global nuclear inspectorate for safeguarding against the proliferation of nuclear weapons. Become part of a well-trained, skilled and professional team of individuals and play a part in promoting the peaceful use of nuclear technology.

Organizational Unit: **Safeguards Operations Divisions**

Job Title: **Nuclear Safeguards Inspector (multiple positions)**

Duration: **Fixed Term, 3 years**

Deadline: **1 September 2017**

Experience and background required:

- University degree in physics, chemistry or engineering, with specialization in the following fields:
 - nuclear engineering/nuclear technology;
 - applied nuclear physics/applied physics;
 - electrical/electronic/mechanical engineering;
 - chemical/metallurgical or industrial processing engineering;
 - radiochemistry
- Minimum of five years of relevant 'hands-on' experience in the nuclear field, preferably in the operation of nuclear fuel cycle facilities
- Demonstrated experience in writing analytical reports in English
- Fluency in written and spoken English. A working knowledge of another official IAEA language (i.e.: Arabic, Chinese, French, Russian or Spanish) desirable.

Applications from qualified women and candidates from developing countries are encouraged
