1. Introduction

- 1.1 The Client named in the **Bidding Data Sheet** will select a consulting firm/organization (the Consultant) from those listed in the Letter of Invitation, in accordance with the method of selection specified in the **Bidding Data Sheet**.
- 1.2 The shortlisted Consultants are invited to submit a Technical Proposal and a Financial Proposal, or a Technical Proposal only, as specified in the **Bidding Data Sheet**, for consulting services required for the assignment named in the **Bidding Data Sheet**. The Proposal will be the basis for contract negotiations and ultimately for a signed Contract with the selected Consultant.
- 1.3 Consultants should familiarize themselves with local conditions and take them into account in preparing their Proposals. To obtain first-hand information on the assignment and local conditions, Consultants are encouraged to visit the Client before submitting a proposal and to attend a pre-proposal conference if one is specified in the **Bidding Data Sheet**. Attending the pre-proposal conference is optional. Consultants should contact the Client’s representative named in the **Bidding Data Sheet** to arrange for their visit or to obtain additional information on the pre-proposal conference. Consultants should ensure that these officials are advised of the visit in adequate time to allow them to make appropriate arrangements.
- 1.4 The Client will timely provide at no cost to the Consultants the inputs and facilities specified in the **Bidding Data Sheet**, assist the firm in obtaining licenses and permits needed to carry out the services, and make available relevant project data and reports.
- 1.5 Consultants shall bear all costs associated with the preparation and submission of their proposals and contract negotiation. The Client is not bound to accept any proposal, and reserves the right to annul the selection process at any time prior to Contract award, without thereby incurring any liability to the

Consultants.

Conflict of Interest

- 1.6 The Government of the Republic of Namibia requires that Consultants provide professional, objective, and impartial advice and at all times hold the client's interests paramount, strictly avoid conflicts with other assignments or their own corporate interests and act without any consideration for future work.

1.6.1 Without limitation on the generality of the foregoing, Consultants, and any of their affiliates, shall be considered to have a conflict of interest and shall not be recruited, under any of the circumstances set forth below:

Conflicting activities

- (i) A firm that has been engaged by the client to provide goods, works or services other than consulting services for a project, and any of its affiliates, shall be disqualified from providing consulting services related to those goods, works or services. Conversely, a firm hired to provide consulting services for the preparation or implementation of a project, and any of its affiliates, shall be disqualified from subsequently providing goods or works or services other than consulting services resulting from or directly related to the firm's consulting services for such preparation or implementation. For the purpose of this paragraph, services other than consulting services are defined as those leading to a measurable physical output, for example surveys, exploratory drilling, aerial photography, and satellite imagery.

Conflicting assignments

- (ii) A Consultant (including its Personnel and Sub-Consultants) or any of its affiliates shall not be hired for any assignment that, by its nature, may be in conflict with another assignment of the Consultant to be executed for the same or for another Client. For example, a Consultant hired to prepare engineering design for an infrastructure project shall not be engaged to prepare an independent environmental assessment for the same project, and a Consultant assisting a Client in the privatization of public assets shall not

purchase, nor advise purchasers of, such assets. Similarly, a Consultant hired to prepare Terms of Reference for an assignment should not be hired for the assignment in question.

**Conflicting
relationships**

- (iii) A Consultant (including its Personnel and Sub-Consultants) that has a business or family relationship with a member of the Client's staff who is directly or indirectly involved in any part of (i) the preparation of the Terms of Reference of the assignment, (ii) the selection process for such assignment, or (iii) supervision of the Contract, shall not be awarded a Contract, unless the conflict stemming from this relationship has been resolved in a manner acceptable to the Client throughout the selection process and the execution of the Contract.

1.6.2 Consultants have an obligation to disclose any situation of actual or potential conflict that impacts their capacity to serve the best interest of their Client, or that may reasonably be perceived as having this effect. Failure to disclose said situations may lead to the disqualification of the Consultant or the termination of its Contract.

1.6.3 No agency or current employees of the Client shall work as Consultants under their own Public Entity(s). Recruiting former government employees of the Client to work for their former ministries, departments or agencies is acceptable provided no conflict of interest exists. When the Consultant nominates any government employee as Personnel in their technical proposal, such Personnel must have written certification from their government or employer confirming that they are on leave without pay from their official position and allowed to work full-time outside of their previous official position. Such certification shall be provided to the Client by the Consultant as part of his technical proposal.

**Unfair
Advantage**

1.6.4 If a shortlisted Consultant could derive a competitive advantage for having provided consulting services related to the assignment in question, the Client shall

make available to all shortlisted Consultants together with this RFP all information that would in that respect give such Consultant any competitive advantage over competing Consultants.

To give Consultants reasonable time in which to take an amendment into account in their Proposals the Client may, if the amendment is substantial, extend the deadline for the submission of Proposals. |
| | 3.2 | In preparing their Proposal, Consultants are expected to examine in detail the documents comprising the RFP. Material deficiencies in providing the information requested may result in rejection of a Proposal. |

3.3 While preparing the Technical Proposal, Consultants must give particular attention to the following:

(a) If a shortlisted Consultant considers that it may enhance its expertise for the assignment by associating with other Consultants in a joint venture or sub-consultancy, it may associate with either (a) non-shortlisted Consultant(s), or (b) shortlisted Consultants if so indicated in the **Bidding Data Sheet**. Each responsive Proposal will be given a technical score (St). A Proposal shall be rejected at this stage if it does not respond to important aspects of the RFP, and particularly the Terms of Reference or if it fails to achieve the minimum technical score indicated in the **Bidding Data Sheet**.

Financial Proposals for QBS

5.3 Following the ranking of technical Proposals, when selection is based on quality only (QBS), the first ranked Consultant is invited to negotiate its proposal and the Contract in accordance with the instructions given under para. 6 of these Instructions.

Public Opening and Evaluation of Financial Proposals (only for QCBS, FBS, and LCS)

5.4 After the technical evaluation is completed the Client shall inform the Consultants who have submitted proposals the technical scores obtained by their Technical Proposals, and shall notify those Consultants whose Proposals did not meet the minimum qualifying mark or were considered non responsive to the RFP and TOR, that their Financial Proposals will be returned unopened after completing the selection process. The Client shall simultaneously notify in writing Consultants that have secured the minimum qualifying mark,

the date, time and location for opening the Financial Proposals. The opening date should allow Consultants sufficient time to make arrangements for attending the opening. Consultants' attendance at the opening of Financial Proposals is optional.

- 5.5 Financial Proposals shall be opened in the presence of the Consultants' representatives who choose to attend. The name of the consultants and the technical scores of the consultants shall be read aloud. The Financial Proposal of the Consultants who met the minimum qualifying mark will then be inspected to confirm that they have remained sealed and unopened. These Financial Proposals shall be then opened, and the total prices read aloud and recorded. Copy of the record shall be sent to all Consultants, upon request.
- 5.6 The Client will correct any computational error. When correcting computational errors, in case of discrepancy between a partial amount and the total amount, or between word and figures the formers will prevail. In addition to the above corrections, as indicated under para. 3.6, activities and items described in the Technical Proposal but not priced, shall be assumed to be included in the prices of other activities or items. In case an activity or line item is quantified in the Financial Proposal differently from the Technical Proposal the Evaluation Committee shall correct the quantification indicated in the Financial Proposal so as to make it consistent with that indicated in the Technical Proposal, apply the relevant unit price included in the Financial Proposal to the corrected quantity and correct the total Proposal cost. Prices shall be evaluated as quoted in Namibian Dollars.
- 5.7 In case of QCBS, the lowest evaluated Financial Proposal (Fp) will be given the maximum financial score (Sf) of 100 points. The financial scores (Sf) of the other Financial Proposals will be computed as indicated in the **Bidding Data Sheet**. Proposals will be ranked according to their combined technical (St) and financial (Sf) scores using the weights (T = the weight given to the Technical Proposal; P = the weight given to the Financial Proposal; T + P = 1) indicated in the **Data Sheet**: $S = St \times T\% + Sf \times P\%$. The firm achieving the highest combined technical and financial score will be invited for negotiations.
- 5.8 In the case of Fixed-Budget Selection, the Client will select the firm that submitted the highest ranked Technical Proposal within the budget. Proposals that exceed the indicated budget

will be rejected. In the case of the Least-Cost Selection, the Client will select the lowest proposal among those that passed the minimum technical score. In both cases the evaluated proposal price according to para. 5.6 shall be considered, and the selected firm is invited for negotiations.

6. Negotiations

6.1 Negotiations will be held on the date and at the address indicated in the **Bidding Data Sheet**. The invited Consultant will, as a pre-requisite for attendance at the negotiations, confirm availability of all Professional staff. Failure in satisfying such requirements may result in the Client proceeding to negotiate with the next-ranked Consultant. Representatives conducting negotiations on behalf of the Consultant must have written authority to negotiate and conclude a Contract.

Technical negotiations

6.2 Negotiations will include a discussion of the Technical Proposal, the proposed technical approach and methodology, work plan, and organization and staffing, and any suggestions made by the Consultant to improve the Terms of Reference. The Client and the Consultants will finalize the Terms of Reference, staffing schedule, work schedule, logistics, and reporting. These documents will then be incorporated in the Contract as "Description of Services". Special attention will be paid to clearly defining the inputs and facilities required from the Client to ensure satisfactory implementation of the assignment. The Client shall prepare minutes of negotiations which will be signed by the Client and the Consultant.

Financial negotiations

6.3 If applicable, it is the responsibility of the Consultant, before starting financial negotiations, to contact the local tax authorities to determine the local tax amount to be paid by the Consultant under the Contract. The financial negotiations will include a clarification (if any) of the firm's tax liability in the Republic of Namibia, and the manner in which it will be reflected in the Contract; and will reflect the agreed technical modifications in the cost of the services. In case of Quality and Cost Based Selection, Fixed-Budget Selection, or the Least-Cost Selection methods, unless there are exceptional reasons, the financial negotiations will involve neither the remuneration rates for staff nor other proposed unit rates. For other methods, Consultants will provide the Client with the information on remuneration rates described in the Appendix attached to Section 4 - Financial Proposal - Standard Forms of this RFP.

- | | | |
|---|-----|---|
| Availability of Professional staff/experts | 6.4 | Having selected the Consultant on the basis of, among other things, an evaluation of proposed Professional staff, the Client expects to negotiate a Contract on the basis of the Professional staff named in the Proposal. Before contract negotiations, the Client will require assurances that the Professional staff will be actually available. The Client will not consider substitutions during contract negotiations unless both parties agree that undue delay in the selection process makes such substitution unavoidable or for reasons such as death or medical incapacity. If this is not the case and if it is established that Professional staff were offered in the proposal without confirming their availability, the Consultant may be disqualified. Any proposed substitute shall have equivalent or better qualifications and experience than the original candidate and shall be submitted by the Consultant within the period of time specified in the letter of invitation to negotiate. |
| Conclusion of the negotiations | 6.5 | Negotiations will conclude with a review of the draft Contract. To complete negotiations the Client and the Consultant will initial the Contract. If negotiations fail, the Client will invite the Consultant whose Proposal received the second highest score to negotiate a Contract. |
| 7. Award of Contract | 7.1 | The Consultant whose bid attains the highest score, in accordance with the criteria and selection method set forth in the request for proposals, or the one with the least cost in the case of the Least Cost method of selection, shall be selected for award, subject to satisfactory conclusion of negotiation. |
| | 7.2 | For contract above the prescribed threshold outlined in Section 55(4) of the Public Procurement Act, 2015, the Client shall notify the selected Consultant of its intention to award the contract and shall simultaneously notify all other short listed consultants of its decision. |
| | 7.3 | For contracts not exceeding the prescribed threshold outlined in Section 55(4) of the Public Procurement Act, 2015, the client shall issue the Letter of Award. |
| | 7.4 | In the absence of an application for review by any other consultant within 7 days of the notice under section 7.2, the contract shall be awarded to the selected Consultant. |
| | 7.5 | Within seven days from the issue of Letter of Award, the Client shall publish on the Public Procurement Portal www.mof.gov.na/procurement-policy-unit and the Client's website, |

the results of the RFP process identifying the:

- (i) name of the successful Consultant, and the price it offered, as well as the duration and summary scope of the assignment; and
- (ii) an executive summary of the RFP Evaluation Report, for contracts above the prescribed threshold referred to in section 7.2.

7.6 After Contract signature, the Client shall return the unopened Financial Proposals to the unsuccessful Consultants.

7.7 The Consultant is expected to commence the assignment on the date and at the location specified in the **Bidding Data Sheet**.

8. Confidentiality 8.1 Information relating to evaluation of Proposals and recommendations concerning awards shall not be disclosed to the Consultants who submitted the Proposals or to other persons not officially concerned with the process until the publication of the award. The undue use by any Consultant of confidential information related to the process may result in the rejection of its Proposal and may be subject to the provisions of the Government's antifraud and corruption policy.

9. Debriefing 9.1 The client shall promptly attend to all requests for debriefing for the contract made in writing within 30 days from award, and within 3 days from the date of receipt of request from the unsuccessful consultant.

Appendix: Financial Negotiations - Breakdown of Remuneration Rates

(Not to be used when cost is a factor in the evaluation of Proposals)

1. Review of Remuneration Rates

- 1.1 The remuneration rates for staff are made up of salary, social costs, overheads, fee that is profit, and any premium or allowance paid for assignments away from headquarters. To assist the firm in preparing financial negotiations, a Sample Form giving a breakdown of rates is attached (no financial information should be included in the Technical Proposal). Agreed breakdown sheets shall form part of the negotiated contract.
- 1.2 The Client is charged with the custody of government funds and is expected to exercise prudence in the expenditure of these funds. The Client is, therefore, concerned with the reasonableness of the firm's Financial Proposal, and, during negotiations, it expects to be able to review audited financial statements backing up the firm's remuneration rates, certified by an independent auditor. The firm shall be prepared to disclose such audited financial statements for the last three years, to substantiate its rates, and accept that its proposed rates and other financial matters are subject to scrutiny. Rate details are discussed below.
 - (i) **Salary**

This is the gross regular cash salary paid to the individual in the firm's home office. It shall not contain any premium for work away from headquarters or bonus (except where these are included by law or government regulations).
 - (ii) **Bonus**

Bonuses are normally paid out of profits. Because the Client does not wish to make double payments for the same item, staff bonuses shall not normally be included in the rates. Where the Consultant's accounting system is such that the percentages of social costs and overheads are based on total revenue, including bonuses, those percentages shall be adjusted downward accordingly. Where national policy requires that 13 months' pay be given for 12 months' work, the profit element need not be adjusted downward. Any discussions on bonuses shall be supported by audited documentation, which shall be treated as confidential.
 - (iii) **Social Costs**

Social costs are the costs to the firm of staff's non-monetary benefits. These items include, *inter alia*, social security including pension, medical and life insurance costs, and the cost of a staff member being sick or on vacation. In this regard, the cost of leave for public holidays is not an acceptable social cost nor is

the cost of leave taken during an assignment if no additional staff replacement has been provided. Additional leave taken at the end of an assignment in accordance with the firm's leave policy is acceptable as a social cost.

(iv) Cost of Leave

The principles of calculating the cost of total days leave per annum as a percentage of basic salary shall normally be as follows:

$$\text{Leave cost as percentage of salary}^1 = \frac{\text{total days leave} \times 100}{[365 - w - ph - v - s]}$$

Or

$$\text{Leave Cost} = [(salary + bonus + housing subsidy + transport)/260 \times \text{leave credit days}]$$

It is important to note that leave can be considered a social cost only if the Client is not charged for the leave taken.

(v) Overheads

Overhead expenses are the firm's business costs that are not directly related to the execution of the assignment and shall not be reimbursed as separate items under the contract. Typical items are home office costs (partner's time, no billable time, time of senior staff monitoring the project, rent, support staff, research, staff training, marketing, etc.), the cost of staff not currently employed on revenue-earning projects, taxes on business activities and business promotion costs. During negotiations, audited financial statements, certified as correct by an independent auditor and supporting the last three years' overheads, shall be available for discussion, together with detailed lists of items making up the overheads and the percentage by which each relates to basic salary. The Client does not accept an add-on margin for social charges, overhead expenses, etc., for staff who are not permanent employees of the firm. In such case, the firm shall be entitled only to administrative costs and fee on the monthly payments charged for subcontracted staff.

(vi) Fee or Profit

The fee or profit shall be based on the sum of the salary, social costs, and overhead. If any bonuses paid on a regular basis are listed, a corresponding reduction in the profit element shall be expected. Fee or profit shall not be allowed on travel or other reimbursable expenses, unless in the latter case an unusually large amount of procurement of equipment is required. The firm shall

¹ Where w = weekends, ph = public holidays, v = vacation, and s = sick leave.

note that payments shall be made against an agreed estimated payment schedule as described in the draft form of the contract.

- (vii) **Away from Headquarters Allowance or Premium**
Some Consultants pay allowances to staff working away from headquarters. Such allowances are calculated as a percentage of salary and shall not draw overheads or profit. Sometimes, by law, such allowances may draw social costs. In this case, the amount of this social cost shall still be shown under social costs, with the net allowance shown separately. For concerned staff, this allowance, where paid, shall cover home education, etc.; these and similar items shall not be considered as reimbursable costs.
- (viii) **Subsistence Allowances**
Subsistence allowances are not included in the rates, but are paid separately and in local currency. No additional subsistence is payable for dependents—the subsistence rate shall be the same for married and single team members.

Government DSA standard rates may be used as reference to determine subsistence allowances.

2. Reimbursable expenses

- 2.1 The financial negotiations shall further focus on such items as out-of-pocket expenses and other reimbursable expenses. These costs may include, but are not restricted to, cost of surveys, equipment, office rent, supplies, international and local travel, computer rental, mobilization and demobilization, insurance, and printing. These costs may be either unit rates or reimbursable on the presentation of invoices, in foreign or local currency.

3. Bank Guarantee

- 3.1 Payments to the firm, including payment of any advance based on cash flow projections covered by a bank guarantee, shall be made according to an agreed estimated schedule ensuring the firm regular payments in local currency, as long as the services proceed as planned.

THE NAMIBIA INTEGRATED RESOURCE PLAN (NIRP) UPDATE

1. Objective

The Ministry of Mines and Energy (MME) seeks to procure the services of a consultant/consultancy firm with appropriate and relevant expertise and experience to review and update the current National Integrated Resource Plan (NIRP) (2016) to account for current realities. These current realities include all current and realistic future supply-side and demand-side options to enable the Government of the Republic of Namibia (GRN) through the various means and methods to meet future electricity demand in a Sustainable, cost-effective and reliable manner.

2. Context

The Ministry of Mines and Energy (MME) as the Government of the Republic of Namibia's custodian of energy matters, oversees the development of an Integrated Resource Plan (IRP).

The purpose of this provision is to ensure a coordination of national plans and ensure that the development of new electricity generating assets follows a structured process that provides certainty that country objectives can be met and that external investors in Namibian infrastructure have a clear understanding of the country's requirements.

Mandated by the MME, the Electricity Control Board of Namibia (ECB) commissioned the development of an integrated resource plan in 2013. This plan has been subjected to an initial process of review in 2015 and 2016 which culminated in the release of a revised report in 2016. The initial report was developed by a group of companies that won the work after a competitive bidding process.

The initial IRP documents and the subsequent revision were developed with the understanding that as assumptions change, the report would be reviewed and updated.

The introductory note of the 2016 version of the document states that the document "will require updates over time to reflect contemporary developments in Namibia's Electricity Supply Industry". This understanding is supported by the MME's Strategic Plan for 2017/18 to 2021/22 and the National Integrated Resource Plan Review and Update – Final Report (September 2016) that states

that the report should be subjected to a review at intervals not exceeding 5 years.

The NIRP document itself is a 20-year planning document and the current version covers a period from 2016 until 2035. Its overall aim is to provide a least-cost⁶ electricity infrastructure plan to meet demand projections and requirements for an efficient, reliable and secure supply. The NIRP proposes a generation mix for the short-, medium-, and long-term based on the aforementioned considerations. The report constrains itself to the Namibia Electricity Supply Industry (ESI).

This document therefore serves as a Terms of Reference (TOR) for the procurement of a qualified consultant, or qualified consultants, that will review and update the 2016 Namibia IRP (NIRP). The TOR also provides the rationale for the revision, the activity scope of work and the delivery timeline.

3. Rationale for an IRP Review

3.1 Changes in demand

The Namibian ESI has changed significantly since the development of the 2016 NIRP. System maximum demand⁷ has increased each year from a maximum demand of 608 MW (2015/2016 FY) to 631 MW (2016/2017 FY) and 639 MW (2017/2018 FY), respectively. The 2017/18 demand falls short of the 733MW and it is unlikely that the demand will reach the previously forecast peaks.

NamPower has also indicated that due to requirements for regional South to North trading with ZESCO, a summer peak demand phenomenon of 653 MW⁸ occurred during the 2017 FY. These seasonal changes and any demand side management activities also require new approaches to resource planning for the future.

3.2 Changing market conditions and outdated assumptions

The MME acknowledges that a number of 2016 NIRP assumptions have changed. Below are the initial factors that must be updated and considered.

- **Kudu Gas Field:** Assumptions on the gas availability from the Kudu Gas fields have not followed the path of expectation as outlined in the

⁶ Least-cost is used in this context as the “best fit generation” that meets the predicted needs of Namibia through analysing possible portfolios of generating assets. These portfolios include all technologies that align to National strategy as a country and consider them into the IRP. Therefore, the Consultant shall analyze those aspects and factor them into the IRP. I.e. carbon footprint reduction, economic development of certain regions, promotion of national industry, etc. Inline with the MME’s current Energy Policy

⁷ NamPower Annual Report, 2018

2016 IRP. Most significantly, the gas field developer has been unable to secure long-term offtake agreements outside the NamPower system to take the surplus power that the Kudu asset would generate. This persisting situation will make it difficult for the Kudu project to reach financial close

- **Technology prices:** The prices of renewable energy assets continue to decrease, including those of the lesser used commercial technologies that can provide less intermittent power but have previously been seen to be expensive, such as CSP + hybrid CSP-PV with thermal and battery storage. The continued reduction in battery storage prices also presents capacity firming scenarios and other value streams that were previously inaccessible. These and other changes in the technology landscape need to be assessed for their impact on the Namibia generation mix. This is evident in the signing of 19 new Power Purchase Agreements (PPAs) with NamPower to supply 175.5 MW of wind and solar renewable energy generation as pointed out in the MME Ministerial Statement, October 2018⁹
- **Exchange rates:** The 2016 NIRP dealt with prices that are obtained in United States Dollars (US\$), which were converted to Namibian Dollars (N\$) at an exchange rate of 1 US\$ to 16 N\$ based on December 2015 prices. The 2016 NIRP anticipated exchange depreciation with the NIRP expectation that one US\$ could be equal to 17.5 ZAR by the middle of 2016 did not materialise over the period. The exchange trajectory must therefore be revisited
- **Namibia Market Structure, Modified Single Buyer Market Model (MSBM):** Namibia has progressed to the point of implementing new market rules that modify the existing model for the independent market participants seeking to generate and buy power from each other. This was not the case when the 2016 NIRP was developed, and as such should be included as part of the assumptions of supply scenarios
- **Demand-side Management and Energy Efficiency Measures:** The 2016 NIRP made assumptions about the DSM programs that would be implemented and their impact on supply planning. The success of previous DSM programs as well as planned DSM options need to be interrogated and their impact on the supply side determined for the revised NIRP
- **Energy Storage:** This was limited in scope when the 2016 NIRP was developed; the 2016 NIRP considered energy storage not viable for

9

http://www.mme.gov.na/files/publications/2e0_Media%20Statement%20on%20Electricity%20Supply.pdf

pairing with wind and solar PV technologies. The outlook for the role of energy storage has changed significantly since 2016.

- **Off-grid Electrification:** This was not included in the 2016 NIRP, but industry feels that off-grid electrification should be considered as it has the potential to reduce demand on the grid.
- **Embedded Generation and Net-metering:** These forms of generation were not considered as contributors in the scenarios considered in 2016. The MME now would like these contributions to be evaluated and their growth rate and impact to be better understood for improved policy making and planning
- **Economic outlook:** The Bank of Namibia's Monetary Policy Committee (MPC), noted that available indicators show that the domestic economy was weak during the first four months of 2017, compared to the same period in 2016. The MPC further noted that domestic economic activity remained weak during 2018.¹⁰ This impact needs to be accounted for in a revised plan given it will have an impact on economic growth, electricity demand and other financial factors
- Studies by both ECB and Nampower recommended that **intermittent generating sources** should not exceed 50% of the average daytime load. Current and committed Wind and Solar (PV) Projects have exceeded this threshold

4. Previous Studies

The first NIRP was prepared in 2013 and a review and update to this IRP was released in 2016. This review included an update of information available at the beginning of 2016, including committed generation facilities, status of imports and demand forecast. Associated with these reports are the derived PLEXOS¹¹ models that can be utilised for future NIRP updates. These models will be provided to the consultant for use to develop the NIRP and ownership and copyright rests with the Government of Namibia.

5. Scope of Work

5.1 Approach to Execute the Scope

The 2016 report is an accepted and well-socialized document and the Ministry would like the same methodology to be used for the revision i.e. selecting power generation technologies to be considered, considering

feasible short-term options, determining expansion scenarios, selecting preferred scenarios, and determining the base-case and alternative paths. The consultant is expected to provide an abridged revision of the 2016 NIRP. This requirement for an abridged revision emphasizes the need to only review the study aspects that have changed to such an extent that they influence the IRP outcomes.

The consultant is expected to revise and review major input assumptions, update the Plexos model used, evaluate the scenarios for relevance and validity, run scenarios and sensitivities and produce a revision. The elements of the NIRP that require revision will include but not limited to the following:

- Economic parameters that are influenced or influencing the electricity sector.
- Plant reliability criteria
- Emissions criteria
- Fuel prices
- Generation resources and options (including emerging, hybrid, storage technologies + costs)
- Level of penetration by intermittent supply options
- Load forecast and supply/demand balance
- Evolution and forecast on transmission/distribution assets

The consultant will further be expected to take their developed IRP draft through a process of stakeholder consultations to socialize the draft findings and to receive input from key stakeholders. This process should be undertaken prior to the IRP document being finalized for consideration by the MME and Cabinet.

5.2 Tasks

The main tasks of the NIRP revision process are as follows: (Not necessarily sequential)

- ***Working alongside an MME representative:*** The consultant is expected to integrate into their team and consult the assigned individual from the MME who will be deployed to oversee the study and represent the MME's interests. The rules of this interaction will be set out at the engagement's inception stage
- ***Review of previous Namibian IRPs:*** The consultant must source all of the input material, models and outputs that were used for the 2016 IRP from the MME and the ECB. Following the conclusion of the review of the 2016 IRP and other data, the consultant may propose a revised

scope of work if required to reflect the required analysis. Any changes will be subject to the approval of the MME

- **Data gathering and analysis:** the consultant is expected to use their expertise and resources to source, consolidate and analyze any additional data required for the study. The MME representative will assist with arranging meetings; the consultant will be advised on the correct protocol/procedure for requesting information at the project initiation stage
- **Plexos model update and scenario selection:** The consultant will be required to update the current Plexos model that was used for the 2016 NIRP to reflect changes in input assumptions, the new MSB structure, DSM and net-metering etc. The consultant will also be required to run a number of scenarios to be discussed with MME to ensure they are representative and realistic. In order to make the plan relevant and more accurately responsive to the latest and currently prevailing circumstances and timelines and develop a shortlist based on pre-determined criteria, and work with the MME to select preferred scenarios
- **Development of an implementation plan:** The consultant is expected to develop an implementation plan (Including timing and budgeting) that will form part of the IRP
- **Capacity building:** The consultant is expected to propose and roll-out training and capacity-building interventions related to data and criteria analysis and selection, that will ensure that identified MME personnel acquire the skills to conduct future IRP updates¹² independent of the need to recruit external consultants. It is expected that the consultant(s) selected will provide a dedicated computer that will be permanently located at the MME building in Windhoek. The computer should be loaded with Plexos software that has a licence valid for a period of at least 24 months.
- **Stakeholder engagements:** Stakeholder engagement is an important aspect of the work that the consultant will undertake. The consultant will need to engage with all key stakeholders within the government sector, the Namibian Electricity Supply Industry (ESI) and Energy sector. The consultant will also have to engage stakeholders from the broader Namibian society to solicit their inputs or views. The stakeholders to be engaged include NamPower, Regional Electricity Distributors (REDS), the ECB, government departments, private sector

¹² The copyright to Plexos files created, and the actual files, will be the property of the MME

representatives (including high energy consumers) and the broader public (according to Namibia's requirements for public consultation). At inception the consultant will be required to submit a stakeholder engagement plan that lays out the mode of engagement. For specific stakeholders, the consultant will facilitate two (2) national stakeholder workshops which will be organized and hosted by the MME with guidance on discussion points from the consultants. The timing of these workshops will be reviewed and agreed to at project initiation

- **Record of interactions:** The consultant is expected to document all findings and interactions. These include meetings, information requests, information received, and other ad-hoc stakeholder engagements that influence the study. These should be submitted to the MME as a supplement to the main report
- **In-country visits:** In the event that the consultant selected is not based in Namibia, (s)he will be required to travel to Namibia to conduct some of the interactions and analysis. The consultant is required to include a proposed schedule to Namibia as part of the schedule and pricing they submit in response to the call for proposals
- **Own the require software licences:** The consultant is expected to have a Plexos licence¹³. Justification for changes to or additions of software packages must be made to the MME during the proposal submission stage

The Standard Contract consists of four parts: the Form of Contract to be signed by the Client and the Consultant, the General Conditions of Contract, the Special Conditions of Contract, and the Appendices. The client using this Standard Contract NOT alter the General Conditions. Any adjustment to meet project features should be made only in the Special Conditions.
2. Time-based contracts are recommended when the scope of the services cannot be established with sufficient precision, or the duration and quantity of services depends on variables that are beyond the control of the Consultant. In time-based contracts the Consultant provides services on a timed basis according to quality specifications, and Consultant's remuneration is based on (i) agreed upon unit rates for Consultant staff multiplied by the actual time spent by the staff in executing the assignment, and (ii) reimbursable expenses using actual expenses and/or agreed unit prices. This type of contract requires the Client to closely supervise Consultant and to be involved in the daily execution of the assignment.

6.2 Remuneration and Reimbursable Expenses

- (a) Subject to the ceilings specified in Clause GC 6.1(b) hereof, the Client shall pay to the Consultant (i) remuneration as set forth in Clause GC 6.2(b) hereunder, and (ii) reimbursable expenses as set forth in Clause GC 6.2(c) hereunder. Unless otherwise specified in the SC, said remuneration shall be fixed for the duration of the Contract.
- (b) Payment for the Personnel shall be determined on the basis of

time actually spent by such Personnel in the performance of the Services after the date determined in accordance with Clause GC 2.3 and Clause SC 2.3 (or such other date as the Parties shall agree in writing), at the rates referred to in Clause SC 6.2(b), and subject to price adjustment, if any, specified in Clause SC 6.2(a).

- (c) Reimbursable expenses actually and reasonably incurred by the Consultant in the performance of the Services, as specified in Clause SC 6.2(c).

6.3 Currency of Payment

Payments shall be made in the Namibian Dollars.

6.4 Mode of Billing and Payment

Billings and payments in respect of the Services shall be made as follows:

- (a) Within the number of days after the Effective Date specified in the SC, the Client shall cause to be paid to the Consultant advance payments in Namibian dollars as specified in the SC. When the SC indicate advance payment, this will be due after provision by the Consultant to the Client of an advance payment guarantee acceptable to the Client in an amount (or amounts) and in a currency (or currencies) specified in the SC. Such guarantee (i) to remain effective until the advance payment has been fully set off, and (ii) to be in the form set forth in Appendix F hereto, or in such other form as the Client

shall have approved in writing. The advance payments will be set off by the Client in equal installments against the statements for the number of months of the Services specified in the SC until said advance payments have been fully set off.

- (b) As soon as practicable and not later than fifteen (15) days after the end of each calendar month during the period of the Services, or after the end of each time intervals otherwise indicated in the SC, the Consultant shall submit to the Client, in duplicate, itemized statements, accompanied by copies of invoices, vouchers and other appropriate supporting materials, of the amounts payable pursuant to Clauses GC 6.3 and GC 6.4 for such month, or any other period indicated in the SC. Separate statements shall be submitted in respect of amounts payable in foreign currency and in local currency. Each statement shall distinguish that portion of the total eligible costs which pertains to remuneration from that portion which pertains to reimbursable expenses.
- (c) The Client shall pay the Consultant's statements within sixty (60) days after the receipt by the Client of such statements with supporting documents. Only such portion of a statement that is not satisfactorily supported may be withheld from payment. Should any discrepancy be found to exist between actual payment and costs authorized to be incurred by the Consultant, the Client may add or subtract the difference from any subsequent payments. Interest at the annual rate specified in the SC shall become payable as from the above due date on any amount due by, but not paid on, such due date.
- (d) The final payment under this Clause shall be made only after the final report and a final statement, identified as such, shall have been submitted by the Consultant and approved as satisfactory by the Client. The Services shall be deemed completed and finally accepted by the Client and the final report and final statement shall be deemed approved by the Client as satisfactory ninety (90) calendar days after receipt of the final report and final statement by the Client unless the Client, within such ninety (90) day period, gives written notice to the Consultant specifying in detail deficiencies in the Services, the final report or final statement. The Consultant shall thereupon promptly make any necessary corrections, and thereafter the foregoing process shall be repeated. Any amount, which the Client has paid or caused to be paid in accordance with this Clause in excess of the amounts actually payable in accordance with the provisions of this Contract, shall be reimbursed by the

Consultant to the Client within thirty (30) days after receipt by the Consultant of notice thereof. Any such claim by the Client for reimbursement must be made within twelve (12) calendar months after receipt by the Client of a final report and a final statement approved by the Client in accordance with the above.

- (f) Payments in respect of remuneration or reimbursable expenses, which exceed the cost estimates for these items as set forth in Appendices D, may be charged to the respective contingencies provided for in Namibian Dollars only if such expenditures were approved by the Client prior to being incurred.
- (g) With the exception of the final payment under (d) above, payments do not constitute acceptance of the Services nor relieve the Consultant of any obligations hereunder.
